

FACTSHEET ON THE SINGAPORE INTERNATIONAL ENERGY WEEK 2025

The Singapore International Energy Week (SIEW), organised by the Energy Market Authority (EMA), is an annual platform for energy professionals and policymakers to discuss and share best practices and solutions within the global energy space, in one week one location.

First held in 2008, SIEW has brought together more than 250,000 energy players from over 130 countries to discuss energy issues shaping the industry. SIEW is now an officially registered trademark, a symbol of our credibility and prestige as the premier global energy event.

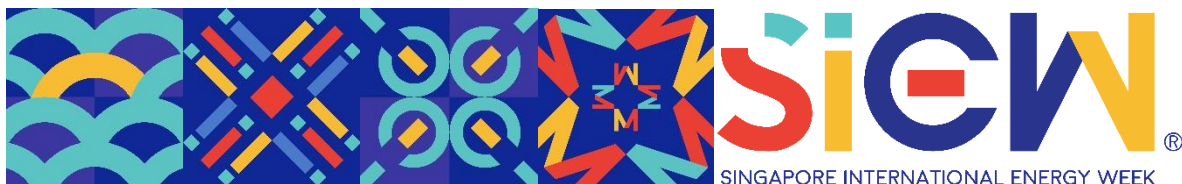

Taking place from 27 to 31 October 2025, participants can look forward to dynamic discussions featuring global energy leaders and industry champions who will be “Envisioning Energy Tomorrow, Building Systems Today”.

Highlights of SIEW 2025

Theme	<p>Envisioning Energy Tomorrow, Building Systems Today</p> <p>Our energy systems of today continue to evolve rapidly amid technological advancements and economic transformations. Energy security and resilience remain priorities as countries navigate energy market and supply volatility, disruptions in energy technologies and policy shifts.</p> <p>How can the global energy community deepen cooperation to advance the energy transition, and build secure, resilient, and flexible energy systems for the future? To power the next wave of innovation in mobility and artificial intelligence, there is urgency to redouble efforts to assess and develop low-carbon energy pathways, including hydrogen, carbon capture utilisation and storage, nuclear, geothermal and biomethane.</p> <p>The Singapore International Energy Week (SIEW) 2025, held in conjunction with Singapore’s 60th year of independence, will convene global energy leaders to discuss the theme – “Envisioning Energy Tomorrow, Building Systems Today”. Key discussions include strengthening regional interconnectivity, fostering collaboration in energy research, development and deployment, the role of natural gas as a transition fuel, infrastructure and financing issues and building a people-centered and resilient energy system.</p> <p>Join us as we envision the future energy systems together at the 18th SIEW this October.</p>

Key Events	<ol style="list-style-type: none"> SIEW Summit The SIEW Summit includes the following key events: <ul style="list-style-type: none"> Singapore Energy Lecture SIEW Opening Keynote Address Singapore Energy Summit <p>The Singapore Energy Summit (SES) is a platform for strategic panel discussions on key energy issues, gathering high-level speakers from government, industry and international organisations. This year, the SES will discuss:</p> <ul style="list-style-type: none"> Envisioning Asia's Energy Future The Next Energy Breakthrough: Scaling Future Energy Technologies The Future of Energy: Natural Gas' Strategic Role in Grid Stability Financing Our Decarbonised Future Singapore-International Energy Agency (IEA) Forum A high-level dialogue by Singapore and the International Energy Agency (IEA) for global energy leaders to discuss the future of energy markets. Singapore-International Renewable Energy Agency (IRENA) High-Level Forum Co-hosted by Singapore and the International Renewable Energy Agency (IRENA), the forum discusses energy transition and renewable energy development in Southeast Asia and beyond. SIEW Energy Insights SIEW Energy Insights features presentations on the latest projects, innovations, and report launches by renowned international organisations, energy thought leaders and industry players. SIEW TechTable SIEW TechTable sessions are designed to explore emerging and nascent low carbon technologies that will accelerate the energy transition. SIEW Thinktank Roundtables Deep-dive sessions on niche energy topics led by international organisations designed to encourage exchanges among like-minded industry peers.

New for SIEW 2025	<ol style="list-style-type: none">1. The SG60@SIEW Showcase will envision Singapore’s energy landscape of 2065 and demonstrate how today’s initiatives and decisions will shape the nation’s energy ecosystem in the next four decades.2. The SIEW Academy will be launched, bringing together a network of distinguished energy thought leaders who will shape the discourse on energy innovation and chart new pathways for Asia’s energy future.3. There will be conversations on future-ready technologies, which will deep dive into nuclear energy, Carbon Capture Utilisation and Storage, artificial intelligence applications, biomethane and other emerging technologies.4. The Conference on Electric Power Supply Industry (CEPSI), hosted by SP Group, will be held in conjunction with SIEW.																													
Organisations that Participated at SIEW	<p>Organisations that have participated at previous editions of SIEW include:</p> <ol style="list-style-type: none">1. Ministry of Economy, Trade and Industry, Japan

About Singapore International Energy Week (SIEW)

The Singapore International Energy Week (SIEW) is an official trademarked event organised by the Energy Market Authority (EMA). It is an annual platform for energy professionals, policymakers and commentators to discuss and share best practices and solutions within the global energy space. The 18th edition of SIEW will be held from 27 – 31 October 2025 in Singapore. Visit www.siew.gov.sg for the latest event updates.

About the Energy Market Authority (EMA)

The Energy Market Authority (EMA) is a statutory board under the Singapore Ministry of Trade and Industry. Through our work, we seek to build a clean energy future that is resilient, sustainable, and competitive. We aim to ensure a reliable and secure energy supply, promote effective competition in the energy market and develop a dynamic energy sector in Singapore. Visit <http://www.ema.gov.sg> for more information.
