7 firms sign MOU to study hydrogen as green energy source for Singapore

MON, MAR 30, 2020 - 2:27 PM

RACHEL CHIA ✉ rchia@sph.com.sg 🐦 @RachelChiaBT

FIVE Singapore and two Japanese companies on Monday signed a memorandum of understanding (MOU) to develop ways to use hydrogen as a low-carbon energy source in the city-state.

The seven companies are: PSA Corporation, **Jurong Port**, City Gas, Sembcorp Industries, Singapore LNG Corporation, Chiyoda Corporation and its main shareholder, Mitsubishi Corporation.

SMES
a Vector for sustainability

RELY ON US

SMES A KEY VECTOR FOR SUSTAINABILITY

Key benefits of SMES

- **Better understanding** of various energy sources and their performance.
- Making **data driven business decisions** for participation in energy market.
- **Gain technical competency** and **better management** of port's micro grid.
- Obtain greater **energy efficiency**, **reduce CO₂ emissions** and help JP become a **next generation**

Sustainable port!
