

CONNECTING ENERGY SYSTEMS, POWERING TOMORROW

The urgency to build the power systems of tomorrow is accelerating globally. As demand surges, driven by AI, data centres, electric vehicles and cooling needs, our success depends on connecting energy systems: creating more resilient regional grids, integrating diverse sources and next generation technologies like advanced nuclear, hydrogen, biomethane, geothermal, and carbon capture utilisation and storage, and forging stronger cross-border collaboration.

To translate these connections into real impact, we need robust policies, innovative finance, and international partnership. The ultimate goal is to power a secured future – achieving energy resilience, sustainability and inclusive development for generations to come.

How can public and private leaders collaborate to bridge ambition with action? Singapore International Energy Week (SIEW) 2026 convenes global stakeholders to strengthen alliance, share forward looking insights and advance the innovative solutions that will power our shared future.

NEW at SIEW 2026!

BIGGER SUMMIT

SIEW Summit expands across two days with dedicated evening receptions for the global energy community to build connections

NEW: IAEA

International Atomic Energy Agency (IAEA) joins SIEW for discussions on nuclear technologies and safety

SPECIAL MILESTONE

EMA's 25th anniversary marked through the SIEW Energy Showcase

STRONGER FOCUS AREA

Grids, AI, cross-border collaboration, next-generation technologies and many more

Our Programmes

SIEW SUMMIT

EXPANDED TO TWO DAYS

The SIEW Summit is a platform for strategic discussions on key energy issues, gathering high-level speakers from the government, industry and international organisations. This year, the SIEW Summit will be expanded into a two-day event.

Includes:

SINGAPORE-IEA FORUM

This dialogue promotes discussions, knowledge exchange and forward-looking strategies to secure our energy future.

SINGAPORE-IRENA HIGH-LEVEL FORUM

This forum will discuss financing the energy transitions, and renewable energy development in Southeast Asia and beyond.

IAEA@SIEW

The inaugural forum will discuss advancing nuclear energy readiness.

SIEW ENERGY INSIGHTS

Featuring global thought leaders, industry pioneers, and renowned organisations unveiling the latest projects, innovations, and reports shaping the energy transition.

SIEW TECHTABLE

Where global technology experts, energy innovators, and policy leaders examine emerging technological trends, and investments needed to drive the clean energy transition.

SIEW THINKTANK ROUNDTABLES

Deep-dived sessions on niche energy topics led by international organisations designed to encourage exchanges among like-minded industry peers.

ASEAN ENERGY REGULATORY FORUM

This Forum will bring together leading energy regulators, policymakers and industry leaders to strengthen cooperation on regulatory best practices, policy planning and map a way forward towards enhancing connectivity and resilient energy systems.

SIEW ENERGY SHOWCASE

An exhibition that features innovative energy technologies and solutions from industry companies.

SIEW 2026 @ A Glance

Monday 26 Oct	Tuesday 27 Oct	Wednesday 28 Oct	Thursday 29 Oct	Friday 30 Oct
SIEW Summit	<u>SIEW Summit*</u> Singapore-IEA Forum Singapore-IRENA High-Level Forum IAEA@SIEW	SIEW Energy Insights	SIEW Thinktank Roundtables

Programme subject to change.
*Denotes partner events

SIEW 2026 will play host to industry events across the energy domains:

Singapore International Energy Week (SIEW) is an annual platform for energy professionals, policymakers and commentators to share best practices and solutions within the global energy space. In 2025, SIEW attracted more than 23,000 onsite attendees from over 70 countries. We look forward to welcoming you at SIEW 2026 from 26-30 October at Marina Bay Sands, Singapore.
