

AHC OVERVIEW

AUSTRALIAN HYDROGEN COUNCIL

JULY 2020

THE AUSTRALIAN HYDROGEN COUNCIL

Who we are

We are energy and technology companies, vehicle manufacturers and infrastructure providers with interests across the hydrogen value chain.

Our vision

A hydrogen economy built upon clean and renewable energy technology.

What AHC does

We connect the hydrogen industry and its stakeholders in building a secure, clean and resilient energy future based on hydrogen.

AHC MEMBERS

As of July 2020, AHC has 44 members

- All are companies
- Range of sizes and locations
- Just under half are in energy, with other main categories of technology, transport and consulting

WHY HYDROGEN?

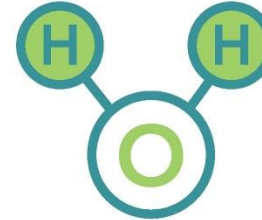

Most common substance in the universe

Produced from many energy sources

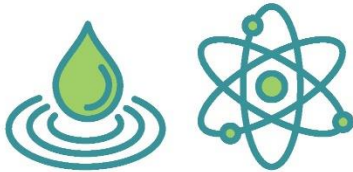

No greenhouse gas emissions in use

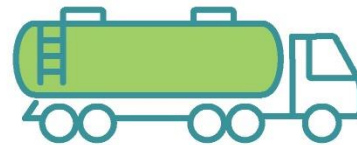

Can be made cleanly using water

Higher energy density than batteries when compressed

Can be stored as a liquid or gas

Can be stored, transported & exported

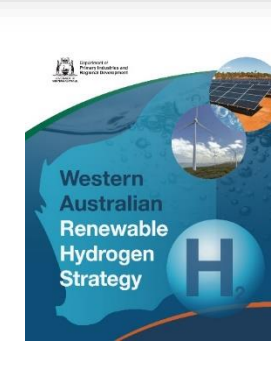

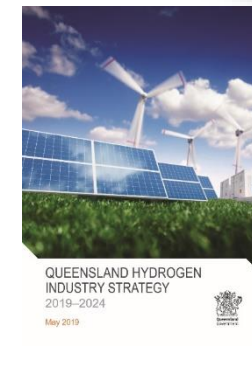

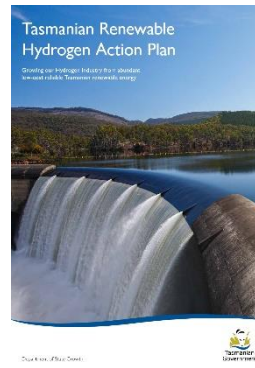

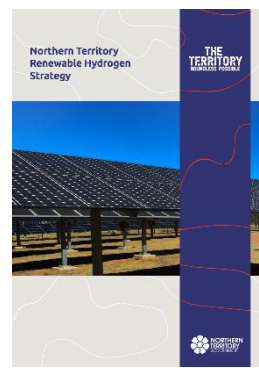

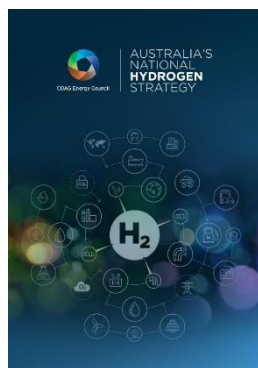

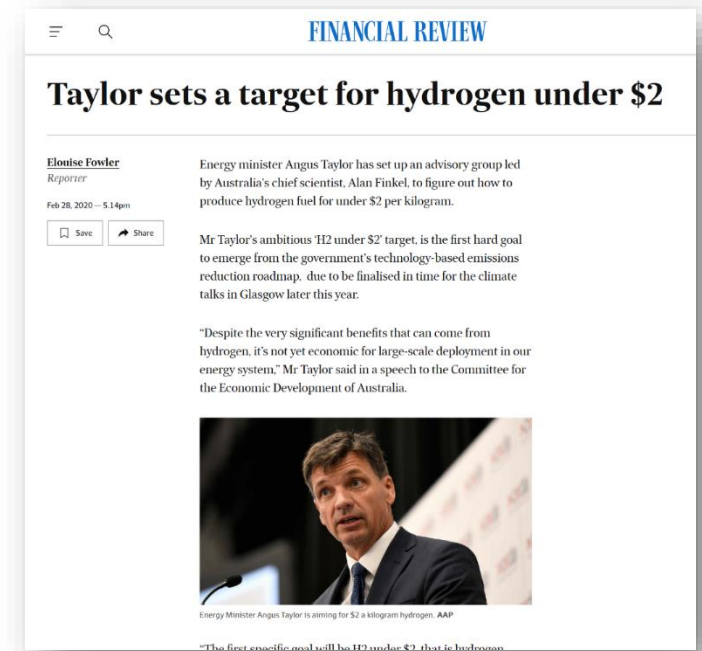

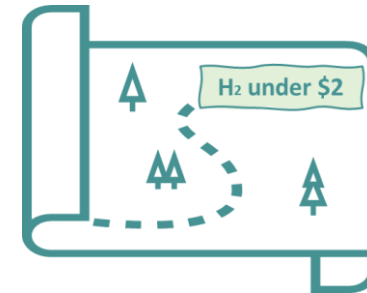

No more or less safe than petrol or diesel fuels

Can provide energy to all parts of the economy

PRIORITIES

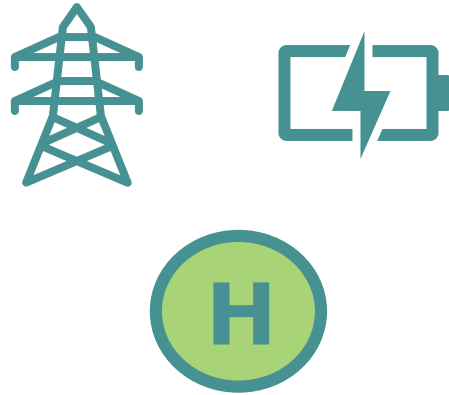

- Support the implementation of the Australian National Hydrogen Strategy and jurisdictional strategies/plans through our 3 Committees and 10 working groups
 - Market activation policy mechanisms
 - Investment mechanisms
 - Regulatory change and coordination
 - Skills and training
 - Community consultation/education and social licence
- Mapping milestones to H2 under \$2
 - Export and domestic markets

IN A POST-PANDEMIC WORLD...

Clean air

Energy diversity and security

Jobs and communities
