

Singapore International Energy Week (SIEW)

Organised by the Energy Market Authority of Singapore, the Singapore International Energy Week (SIEW) is an annual platform for energy professionals, policymakers and commentators to discuss and share best practices and solutions within the global space. The 15th edition of SIEW will be held this 25 to 28 October 2022 at Marina Bay Sands, Singapore.

A Resilient and Sustainable Energy Future

The theme for SIEW 2022 is “A Resilient and Sustainable Energy Future”. Post COP26, there is strong momentum for countries to do more to decarbonise their economies and ride the green wave to reduce emissions. In addition to sustainable energy sources, our energy systems must also be resilient. The ongoing energy crisis has emphasised the importance of energy security and some countries have prioritised this above decarbonisation initiatives. Against this backdrop, SIEW 2022 will discuss policies, frameworks, and best practices to accelerate the transition to a more resilient, greener and more inclusive energy future. It will also examine the opportunities and challenges as the region scales up investments and regional connectivity for a green economy.

SIEW Summit

The SIEW Summit includes EMA’s anchor events; the Singapore Energy Lecture, SIEW Opening Keynote and Singapore Energy Summit. The SIEW Summit facilitates high-level dialogue on energy issues through keynotes, panel discussions and audience participation.
