

The 15th edition of Singapore International Energy Week (SIEW) will be held this 25 to 28 October 2022, at Sands Expo and Convention Centre, Marina Bay Sands, Singapore.

The theme for SIEW 2022 is “[A Resilient and Sustainable Energy Future](#)”. Post COP26, there is strong momentum for countries to do more to decarbonise their economies and ride the green wave to reduce emissions. In addition to sustainable energy sources, our energy systems must also be resilient. The ongoing energy crisis has emphasised the importance of energy security and some countries have prioritised this above decarbonisation initiatives. Against this backdrop, SIEW 2022 will discuss policies, frameworks, and best practices to accelerate the transition to a more resilient, greener and more inclusive energy future. It will also examine the opportunities and challenges as the region scales up investments and regional connectivity for a green economy.
