

A RESILIENT AND SUSTAINABLE ENERGY FUTURE

ORGANISED BY

Smart Energy, Sustainable Future

SINGAPORE INTERNATIONAL ENERGY WEEK

The Singapore International Energy Week (SIEW) is an annual platform for energy professionals, policymakers, and commentators to discuss and share best practices and solutions within the global energy space. First held in 2008, SIEW has brought together more than 212,000 energy players from over 80 countries to discuss energy issues shaping the industry.

The 15th edition of SIEW convened global energy leaders to address the theme “A Resilient and Sustainable Energy Future” in one week, one location.

SIEW HIGHLIGHTS

Deputy Prime Minister and Minister for Finance
Lawrence Wong @ Singapore Energy Lecture

The SIEWCast series was launched to commemorate
the 15th edition of SIEW.

The SIEW Energy Showcase featured how the power
sector supports Singapore's journey towards net
zero emissions.

Networking opportunities @ SIEW Summit Reception and
SIEW Connect

CNA anchored a studio onsite for live interviews and
pre-recordings.

New this year, SIEW TechTable featured industry experts
who shared insights on emerging and nascent low carbon
technologies that will accelerate the energy transition.

SIEW SUMMIT

The SIEW Summit brought together energy leaders and industry experts to address topics that set the scene for discussions across the week.

A. Singapore Energy Lecture

Deputy Prime Minister and Minister for Finance Lawrence Wong kicked off SIEW's 15th edition with the Singapore Energy Lecture, where he announced Singapore's commitment to achieve net zero emissions by 2050 and outlined Singapore's national hydrogen strategy to develop hydrogen as a major decarbonisation pathway.

B. SIEW Summit Opening Address

At the SIEW Summit Opening Address, Minister for Trade and Industry Gan Kim Yong highlighted the need to strengthen Singapore's energy market structure to navigate the dual challenges of the energy transition and energy security.

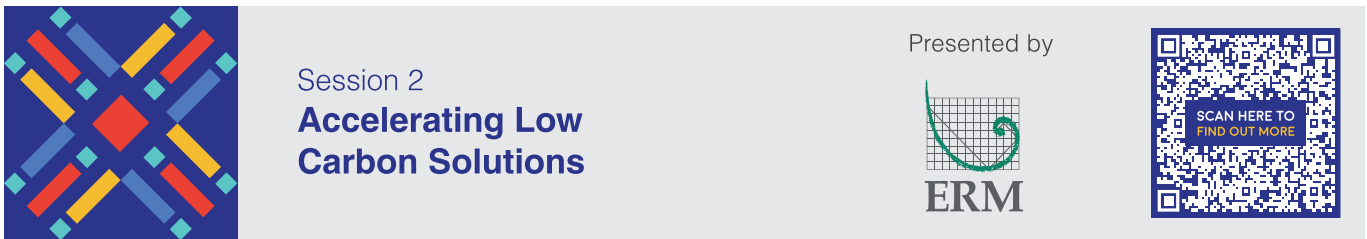

C. SIEW Opening Keynote Address

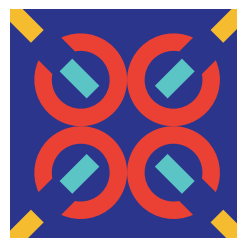

Dr Fatih Birol, Executive Director of the International Energy Agency (IEA) and Dr -Ing Christian Bruch, President and Chief Executive Officer of Siemens Energy AG, outlined their views on the potential pathways to "A Resilient and Sustainable Energy Future" at the SIEW Opening Keynote Address.

SINGAPORE ENERGY SUMMIT

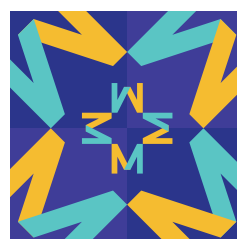

The Singapore Energy Summit (SES) featured distinguished panels of global energy ministers and key industry stakeholders discussing energy issues centred on this year's theme, "A Resilient and Sustainable Energy Future".

Spotlight on Low Carbon Innovations

Presented by

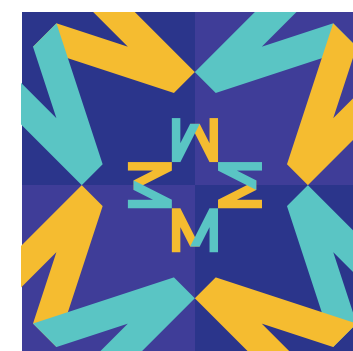

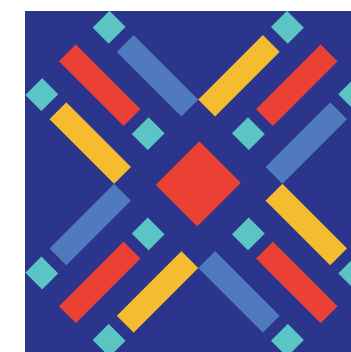

Session 3 Mobilising Greener Financing for Energy Infrastructure

Presented by

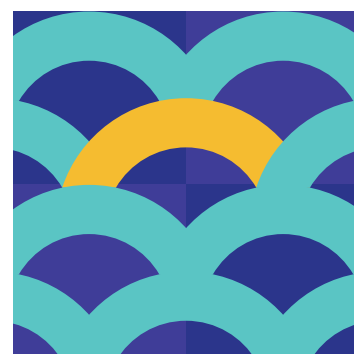

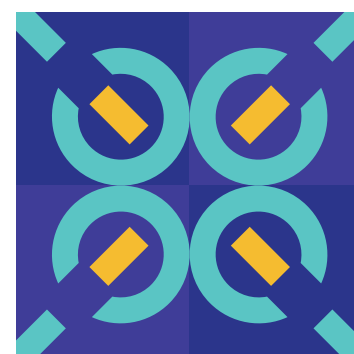

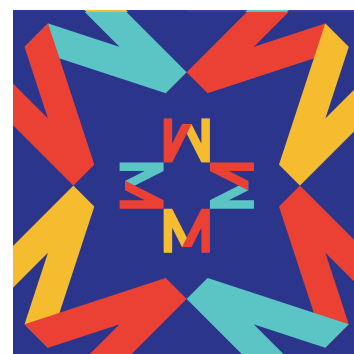

SINGAPORE-IEA MINISTERIAL ROUNDTABLE

The Singapore-International Energy Agency (IEA) Ministerial Roundtable, with the theme of “Energy Security in a Low Carbon World”, featured discussions among ministers and energy thought leaders from Southeast Asia and the wider Asia-Pacific region on the linkages and trade-offs between energy security and energy transitions.

SINGAPORE-IRENA HIGH-LEVEL FORUM

The 2nd Singapore-International Renewable Energy Agency (IRENA) High-Level Forum, co-hosted with IRENA and held in partnership with the Asia Clean Energy Summit, featured robust discussions among governments, financial institutions and industry leaders on the theme “Realising Green Energy Financing and Decarbonisation Opportunities for a Net-Zero Future”.

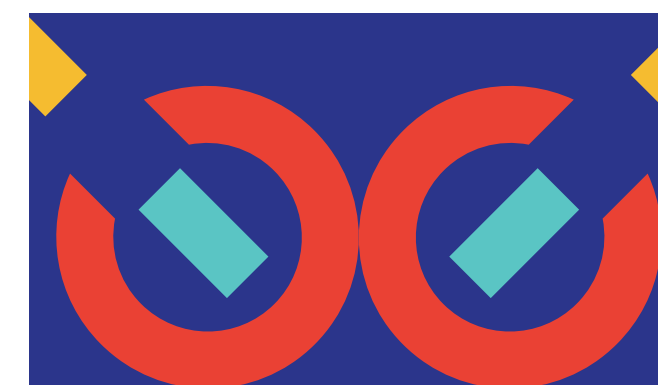

SIEW ENERGY INSIGHTS

The SIEW Energy Insights gathered experts from leading organisations for discussions on areas such as regional power grids, greenification of the future energy grid and hydrogen readiness.

SIEW TECHTABLE

The SIEW TechTable addressed topics such as Carbon Capture, Utilisation and Storage (CCUS), geothermal and nuclear energy technologies, and digitalisation.

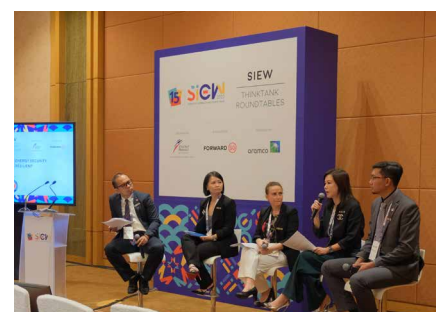

SIEW THINKTANK ROUNDTABLES

The SIEW Thinktank Roundtables covered a wide range of niche energy topics such as Integrating Battery Energy Storage Systems, The Role of Nuclear Energy in ASEAN Decarbonisation, and Achieving our Net Zero Strategy through Technology.

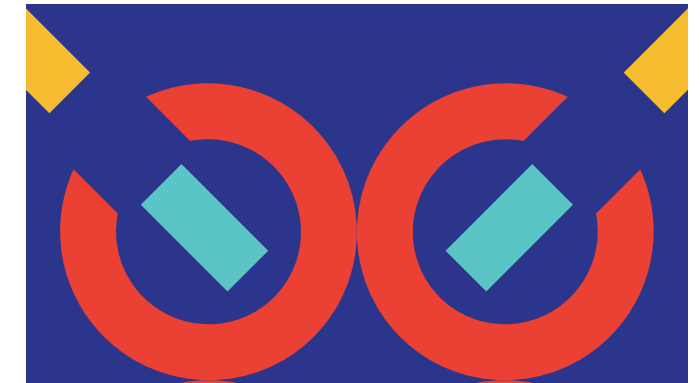

Energy Research Institute @ NTU

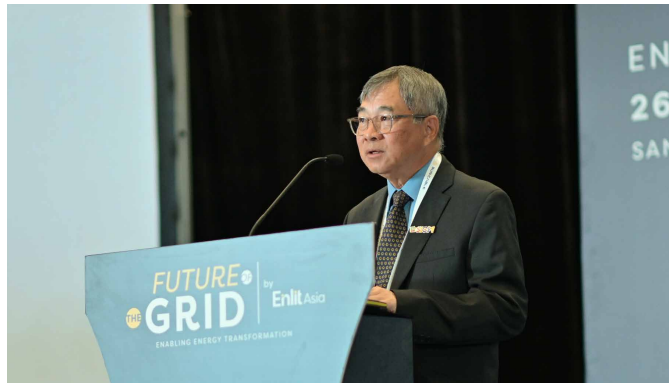

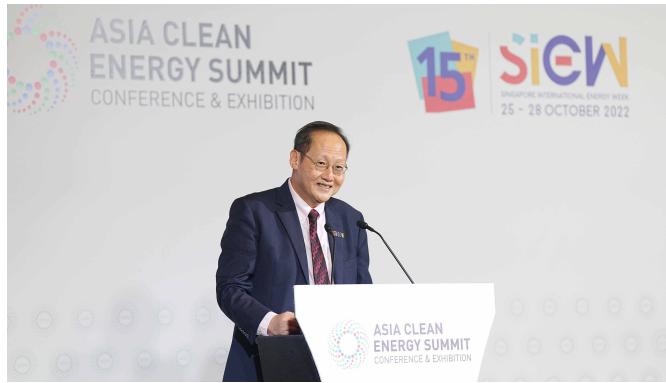

YOUTH@SIEW

This year, Youth@SIEW continued its engagement with tertiary students and educators on the latest energy trends and career opportunities in the energy sector, as part of EMA's efforts to create and nurture interest in the energy sector. The event also featured energy-related projects by students from various institutes of higher learning.

SIEW PARTNER EVENTS

Asia Clean Energy Summit

Asia Clean Energy Summit (ACES) is Asia's premier summit and exhibition shaping clean energy discussions. The 9th edition explored Solar Energy and Storage, Green Hydrogen and Electric Mobility.

Asian Downstream Summit & Asian Refinery Technology Conference

The Asian Downstream Summit (ADS) was held in conjunction with the Asian Refinery Technology Conference (ARTC). Centred on its theme of "Reconfiguring the Industry for the Global Energy Transition", the two events explored the various pathways for refineries to integrate sustainability into their operations.

Asia LNG and Hydrogen Gas Markets

The 8th Asia LNG & Hydrogen Gas Markets brought together policymakers, industry CEOs, and international thought leaders to tackle critical issues in-depth, such as the risks to an emerging hydrogen economy and the continuous drive for energy transition and net-zero goals in the region.

Future of the Grid

The 2nd edition of Future of the Grid engaged industry professionals in insightful and meaningful discussions surrounding contemporary grid-related matters and the opportunities that exist in the context of the current energy market and its transformation journey.
