23 - 27 OCTOBER 2023 | MARINA BAY SANDS

ENERGY TRANSITION  
TOWARDS A NET ZERO WORLD

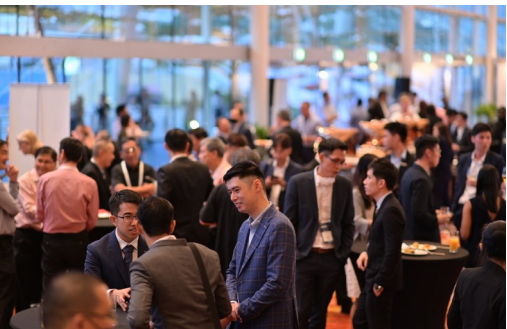

The Singapore International Energy Week (SIEW) is an official trademarked event by the Energy Market Authority of Singapore (EMA). It is an annual platform for energy professionals, policymakers and commentators to discuss and share best practices and solutions within the global energy space. The 16th edition of SIEW will be held from 23 – 27 October 2023 in Singapore.

## SIEW 2023 THEME: ENERGY TRANSITION TOWARDS A NET ZERO WORLD

The uncertain economic outlook, high energy prices, growing energy demand and rising emissions continue to pose challenges to global efforts towards a net zero future. A paradigm shift is needed to sustain the energy transition and galvanise international efforts to respond to the challenges of our time. Our energy systems must continue to evolve and remain adaptable. Technological innovation and investments will be crucial to support the development of regional interconnectivity and the electrification of end-users, while infrastructure and the resiliency of supply chains must be strengthened to unlock the full potential of low-carbon alternatives such as hydrogen to manage energy demand in the longer-term.

In the lead up to COP 28, SIEW 2023 provides a platform for international energy leaders to discuss pertinent issues in the Energy Transition Towards A Net Zero World. Key discussion include: Net Zero Asia, Intensifying Net Zero Innovation, Hydrogen as the Future of Net Zero Energy and Securing Green Financing for a Net Zero Future.
